ABOUT BIZSTREAM ACADEMY

BizStream Academy is a summer code bootcamp. Students learn useful web development skills such as HTML, CSS, and JavaScript from passionate mentors in a friendly, helpful environment. Students leave with a website they've built themselves and a new skillset.

WHY SPONSOR BIZSTREAM ACADEMY

We believe every student should have the opportunity to learn to code which is why we try to keep BizStream Academy as barrier-free as possible. Donations help us continuously improve BizStream Academy by streamlining the courses and providing students with efficient software and other technologies. In 2016 we were able to accommodate 64 students. It costs about $1,200 to put each student through the Academy, which is why these donations are very much appreciated.
